73rd Annual JEFFERSON COUNTY FAIR

President's Welcome Message

Welcome Families and Friends to the 73rd Jefferson County Fair. As we open our gates to this year's fair, my heart is full of gratitude and excitement as it also is the 250th Anniversary of our great County of America.

Our fairgrounds are a place of learning, rides, games and delicious foods; they are a living celebration of our community's support and hard work.

At its heart, the fair remains a tribute to agriculture and youth in our community. Our barns will be busting with animals lovingly raised by 4-H and FFA youth, local artisans showcasing their crafts, and families making memories that will last a lifetime. Every ribbon awarded, and every handshake shared, is a reminder of the dedication and pride that make our country and community so special.

Many thanks go to our volunteers, sponsors and exhibitors. Without your hard work and generosity this event would not be possible. You are the heartbeat of the fair.

Here's to another year of laughter, learning and togetherness. I hope to see you all at the Jefferson County Fair.

Bob Gruber, President, JCFA

JEFFERSON COUNTY FAIR 4-H AND FFA LIVESTOCK CODE OF PRACTICE

(Adopted by Jefferson County Fair Association, 1996; Revised 2004)

To maintain a high degree of confidence in the livestock show, the Jefferson County Fair reserves the right to disqualify any animals that have been fitted in an unethical manner. Unethical fitting shall include any injection of gas, solid, liquid under the skin or any man-made article attached to the body to alter the normal conformation. It shall also include any cutting or tearing of the hide or underneath the hide or removal of tissue in an attempt to alter the shape of the animal. It shall also include attempts to disrupt or change normal dental development as well as the dyeing or coloring of individuals which alters their natural coloration. Any attempts to change the degree of firmness of any individual shall be considered unethical.

I believe that my participation in the 4-H and FFA Livestock Program should demonstrate my own ability, knowledge, and skill as a feeder and fitter of livestock. I will do my own work and only accept advice and support from others.

I will not use abusive and questionable techniques in feeding, fitting and showing of my animals. I will not resort to fraudulent, illegal, or deceptive practices when fitting them for show. I also will not allow my parents, my supervisor, or any other adult to employ such practices to my animal. This includes those unethical practices stated above.

I will read and understand the rules of all livestock shows in which I am a participant. I ask that my parents and the supervisor of my project animal not break the rules or make exception on my behalf. I wish for my livestock project to be an example of how to accept what life has to offer (good and bad) and how to live with the outcome.

I realize that I am responsible for:

- turning in my project circular and record guide on all entered animals at the fair
- the proper care and treatment of my animals
- the productions of wholesome food, and
- the development of sound moral character in myself-and others
- following the 4-H or FFA expectations and requirements in relation to my 4-H or FFA membership.

I/We hereby agree to abide by and enforce the 4-H and FFA Livestock Code of Practice.

I/We have read and agree to abide by and enforce the IAFE National Code of Show Ring Ethics.

NATIONAL CODE OF SHOW RING ETHICS

INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITION (IAFE)

Exhibitors of animals at livestock events shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE" National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibitions in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon the request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at the fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitors, fitters, trainers and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in events, which culminates with the animal entering the food chain, shall not be administered drugs other than in accordance with federal, state, and provincial statutes, regulations and rules. If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medications, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of saliva, urine, blood, or other sample tested by the approved laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with burden of the owner, exhibitors, fitters, trainers or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair or livestock show premises, all treatment involving the use of drugs, and/ or medications shall be administered by a licensed veterinarian.
5. Any surgical procedures or injection of any foreign substances or drug or the external application of any substance (irritant, counterirritant or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitors, fitters, trainers, or absolutely responsible person shall conspire with another person or persons by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individuals to disciplinary action.
9. This application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitors, fitter, trainer or participant whether or not he or she was actually instrumental in or had knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitors, fitters, trainers, or absolutely responsible person to have any disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notice to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitors, fitters, trainers or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorized with jurisdiction over such infractions.

1. In order to exhibit their animal at the Jefferson County Fair, all youth taking animal projects must complete the following and turn into their club leader in late June/early July (Please note, club leaders are required to turn in all of their members' project books, record guides, and activity records as required)

10. Each exhibitor must take care of their own animal(s). 4-H members must furnish their own feed, bedding and showing equipment.
11. Each exhibitor is responsible for the area around his or her own animal during the fair, as well as clean up after the fair.

Department 1-5

Superintendent – JOHN QUINN (304) 582-4656 / jquinn5665@gmail.com
BRIANNA DODSON & TORI OBENDORFER – Assistant Superintendents

RULES & REGULATIONS:

1. Rams shown in any class other than a crossbred class must be registered with registration paperwork on hand and approved by the Sheep Department Superintendent.
2. Sheep shown in any youth class must be accounted for in their exhibitor's 4-H or FFA records. Verification may be necessary.
3. Exhibitors should see that sheep entered for premiums have been handled sufficiently so as to admit being closely inspected by the judge without struggle. If necessary, department officials will divide market classes by weight.
4. All sheep oiled or blackened shall be excluded from competition.
5. All market lambs must be in the sheep barn area 1 hour prior to the start of the show and remain in that area until the show is complete. Lambs in line (as directed by superintendents) are the only authorized animals allowed outside of the sheep barn area. Failure to follow any rules could result in disqualification.
6. No "cooling" or "icing" sheep at ANY time. While at the Jefferson County Fair, the use of water colder than the hydrants at the fairgrounds, i.e., cooler, refrigerated, ice, etc. is NOT allowed. The use of ice packs, cooling products, or sprays that contain alcohol are NOT allowed, i.e., "cool brace", "cool breeze", etc., including cold towels. If the superintendent is notified by the judge that a lamb has been "iced" or "cooled" that lamb will be disqualified and must leave the fairgrounds.
7. Hanging or "Strangling" sheep (aka – Extreme showmanship) – All sheep must have FOUR feet on the ground at all times to include but not limited to, in pens, at ringside, exercising, during showmanship, market classes and breeding classes. Exhibitors may move feet to set the lamb up but then all FOUR feet must be placed back on the ground. Exhibitors will receive a warning if they are found violating this rule. Second offenses will result in automatic exhibitor disqualification from showing the animal and that lamb must leave the fairgrounds.

Classes will be separated by the following breeds:

Revised WVU Extension Policy Effective February 1989:

POLICY:

Effective immediately, all participants* (who have not reached their 21st birthday as of January 1 or who are currently 4-H members) in any mounted 4-H horse activity or show in West Virginia must wear approved U.S. Pony Club, Inc. or ASTM Protective headgear (logo stamped in or sewn into the inside of the helmet liner) with harness and chin strap fastened.

POLICY APPLICATION

1. The brand, selection, approval, use, fit and standards of the headgear shall be determined for 4-H members/youth by the parent or guardian.
2. All 4-H members/youth in any 4-H mounted horse event at local county, district and/or state levels. For example: If the participant is mounted in or out of the ring at a horse show this policy applies.
3. It is recognized that the availability of appropriate safety headgear for a specific riding style may be a problem. Therefore, judges will be instructed that the suitability of safety headgear for a specific class is not to be a factor in placing in that class.
4. Persons who are over 21 years of age taking part in 4-H sponsored shows are strongly encouraged but not required to wear protective headgear.
5. Failure to comply will result in being disqualified from further participation in the event.

6. County extension agents are responsible for communicating the policy to the appropriate clientele and enforcing the policy.

*All persons (youth) who have not reached their 21st birthday as of January 1, or who are current 4-H members.

THE JEFFERSON COUNTY FAIR ASSOCIATION, 4-H CLUB MEMBERS, FFA MEMBERS OR VOLUNTEERS WILL NOT BE RESPONSIBLE FOR ANY ACCIDENTS, INJURY, OR LOSS TO ANY EXHIBITOR, PERSON, HORSE, OR EQUIPMENT OCCURRING BEFORE, DURING OR AFTER ANY SHOW. ALL EXHIBITORS, UNDER 21 AS OF JANUARY 1, 2026, MUST WEAR ASTM/SEI PROTECTIVE HELMETS WITH HARNESS FASTENED AT ALL TIMES.

Please send current Coggins and immunizations to Margaret Liskey via text or email (shown above) August 4, 2026.

DESIGN

Department 11-3

" HISTORIC TREASURES OF JEFFERSON COUNTY"

70117 HAPPY RETREAT – A traditional mass design

Located in Charles Town, this property was owned by Charles Washington, George Washington's younger brother. A two and a half story classical revival structure, it was built in 1780.

American Traditional Mass Design conforms to the American Traditional style and uses large quantities of plant material with a closed silhouette in addition to plant material being integrated and not grouped.

70118 THE LITTLE HOUSE IN SHEPHERDSTOWN – A miniature design

A well-known landmark in the town, the little house is a favorite for tourists and locals alike.

This arrangement must not exceed five inches in any direction but is otherwise open to interpretation by the designer. The arrangement will be staged on a pedestal.

Characteristics: Miniatures can be of any style or any design ("period," oriental, mass line, etc.) Employ all the rules of artistic design. Scale and proportion are the most important. The largest bloom should not exceed one third the size of container and the arrangement should be approximately one to one-and-a half times the height or width of the container. A small amount of plant material is desirable. Avoid crowding. Conditioning is essential.

70019 SHANNONDALE SPRINGS – A tailgate design with late 19th century elements

A resort located on the Blue Ridge Mountain, Shannondale Springs had several iterations. For the purposes of this design, please focus on the rebuilding of the hotel in 1890. Accessories should resemble those available in the late 19th century.

A tailgate arrangement should incorporate elements of both a "cook-out" or packed meal and natural, roadside plant material. Plant material should be wildflowers and other naturalistic setting varieties. The accessories of the basket or meal shouldn't overshadow the plant material.

Please do not include real, perishable food.

70120 WIZARD CLIP AT MIDDLEWAY — A naturalistic landscape design

A well-known local legend, which featured a mysterious stranger, death, poltergeist activities, failing livestock, a barn burning, and haunted sheers the area now known as Middleway played host to Wizard Clip.

A naturalistic landscape design represents a large view such as a wilderness panorama and is based on nature and capturing the essence of a natural landscape scene. The design does not seem contrived or artificial but represents a slice of nature. The plant material should be of high quality but does not have to be a horticultural show quality specimen. The proper scale is vital for these designs to be successful.

70121 STORER COLLEGE – A table arrangement

A school opened for African American students and located in Harpers Ferry, Storer College quickly become a preeminent educational institution. The forerunner of the NAACP, the Niagara Movement, was founded here. The school was open from 1867-1955.

A tailgate arrangement typically incorporates a place setting, but in this design, the exhibitor is challenged to incorporate the classroom into the table arrangement. Accessories should evoke a sense of school, education, and be in keeping with the historic nature of Storer College.
